

Standard Fiber Capabilities

For Military Systems, Cables, and Connectors

Winchester's Fiber Optic capabilities include custom and standard optical solutions for your most challenging applications.

Military Systems

Winchester is an approved vendor for major military contractors with capabilities to terminate hybrid copper/fiber assemblies, as well as ANY available on-the-market military fiber optic connectors.

MTO/MTP® Assemblies

Winchester's MPO/MTP® assemblies offer a reliable way to terminate multiple fibers in a compact housing design; offered with either ribbon fiber or ribbonized individual fibers. Multifiber ferrules are available with 4, 8, 12, 24, and 72 positions. Connectors are available in male, female, or ferrule-only versions which are keyed for proper insertion.

Standard Fiber Connectors

ST, SC, LC, FC and other industry standard fiber connectors are available with any type of fiber and cable. Our attention to quality for single mode, multimode, simplex, duplex and any combination of these ensures a successful connection every time. Cable assemblies are available in low volume quick turn or high volume low cost from our local and international factories.
