

# KTW-21 BNC Installation Tool

Kings products, like the KTW-21 BNC Installation Tool, are now sold under the Kings-Win™ brand from Winchester Interconnect™

## Product Description

Winchester Interconnect's KTW-21 BNC Installation Tool helps users to easily insert and remove BNC Connectors in spaces where grasping the connector by hand is difficult, such as densely cabled video jackfields, break-out panels, and transmission equipment.

- Familiar screwdriver-type handle is easy to grip and control
- KTW-21 is available in two popular lengths – a standard 12-inch tool (KTW-21-2) and a 24-inch extended length tool (KTW-21-1).
- Easily insert and remove BNC Connectors in spaces where grasping the connector by hand is difficult.
- Using the Tool is easy. The C-Ring shaped tool head securely holds the BNC Connector in place and with a simple push and turn, connectors can be easily inserted or removed.
